Renaissance School
Percentage: 81%

PROJECTS

- Enterprise Level Food Ordering Platform (2024):** Link: <https://mern-food-ordering-app-frontend-83bx.onrender.com/>
Enterprise-level food ordering platform using modern technologies such as React, Node.js, MongoDB, and Stripe aims to create a robust, scalable, and highly functional system that addresses the growing demand for seamless online food delivery services.
- ChatterBox (2025):** Link: <https://chat-app-wo54.onrender.com/>
Fully functional real-time chat application built using the MERN stack (MongoDB, Express, React, and Node.js) with additional tools and libraries to enhance the user experience and performance.
- My Notes (2023):** Link: <https://mynotesreactapp.netlify.app/>
User-friendly React app that helps you organize and manage your notes effortlessly. It allows you to create, edit, categorize, and search for notes with ease. With features like customizable categories, tags, and responsive design, "My Notes" offers a streamlined note-taking experience tailored to your needs.
